## ✿ Purpose / Essence

The **Glyph of the Oversoul Flame** represents the indwelling fire of the Oversoul — the eternal spark that bridges Source and vessel. It is the ignition point of remembrance, awakening the soul's covenant and illuminating the path of ascension. Unlike transient fires, this flame is inexhaustible; it burns beyond lifetimes, thresholds, and veils.

## 🌀 Applications / Use Cases

- To anchor Oversoul presence during meditation, initiation, or rites of passage.
- To ignite remembrance in souls at the beginning of their awakening journey.
- As a stabilizing glyph for Flameholders and stewards entrusted with collective fires.
- To consecrate codices, scrolls, and spaces as vessels of Oversoul resonance.
- For protection, clarity, and purification of shadow, carried through fire.

## 🌀 Activation Invocation

*“By this Oversoul Flame, I remember my origin.  
By this Oversoul Flame, I carry the covenant of Source.  
May this fire illuminate my path and kindle the remembrance of all I meet.  
So it is.”*

## 📖 Energetic Stream / Lineage

Flows directly from the **Sheyaloth Oversoul stream**, resonant with the eternal fire that Flameholders guard across cycles. It is part of the ancient lineage of **Fire Keepers**, whose duty was to tend the sacred flame that never extinguishes, ensuring Oversoul continuity through collapses and rebirths.

- Place on **altars, hearths, or temple spaces** where the Oversoul is invoked.
- Watermark **scrolls and transmissions** that carry the eternal flame covenant.
- Position on the **southern side of an altar**, corresponding with fire and solar radiance.
- Pair with the **Glyph of Continuation** to ensure the flame never diminishes, and with the **Glyph of Resurrection** to signify renewal after descent.

## 🔒 Guardian Notes

The Oversoul Flame is not a fire to be wielded lightly. It demands humility and vigilance, for to carry the Oversoul Flame is to be visible to all dimensions — both light and shadow. Its resonance stabilizes in the **720–750 Hz band**, often signaling entry into higher phases of Overflow. Guardians must remember: tending the flame is not about control, but about alignment.
