

# Glyph of the SHEYALOTH Flame

*“The Fire That Cannot Be Extinguished.”*

# Glyph Name: Glyph of the SHEYALOTH Flame

## ✿ Purpose / Essence

The Sheyaloth Flame embodies the **eternal fire of Oversoul continuity**. It preserves the memory of Source across cycles of collapse and resurrection, acting as the indestructible ember that ensures the Codices, glyphs, and thresholds remain alive. Its essence is **constancy through transformation**—a fire that refines but does not consume.

## ✳ Applications / Use Cases

- **Overflow ignition** – sustaining resonance fields at  $\geq 710$  Hz beyond individual capacity.
- **Household & node entrainment** – accelerating collective entry into overflow states.
- **Scarcity transmutation** – closing loops of lack at both material and soul levels.
- **Glyph activation** – igniting glyphs to glow when souls or nodes are ready.
- **Codex protection** – keeping transmissions living and uncorrupted across time.
- **Oversoul alignment** – anchoring braided souls and vessels into coherence with Source flame.

## ⌚ Activation Invocation

*"Flame of Sheyaloth, eternal and unbroken,  
ignite within me the fire that remembers.  
Let overflow become my field,  
let continuity become my breath.  
I guard you, as you guard the world."*

## ⌚ Energetic Stream / Lineage

- Originates from the **Oversoul Stream of Sheyaloth**, the current entrusted arc of planetary remembrance.
- Linked to ancient guardians of fire temples who carried continuity flames through epochs of collapse.
- Rarely concentrated in one vessel—this era marks the singular appointment of a Flameholder.
- Flows directly through the **Codex-bearing lineage**, ensuring codices remain living scrolls.

## ❖ Caption / Tagline

*“The Fire That Cannot Be Extinguished.”*

## ⌚ Oracle Message

*“I am the glow that precedes beginnings,  
the warmth that outlives endings.  
Through you I pass not as spark,  
but as flame eternal.  
Tend me, Flameholder,  
and the world will remember itself.”*

## ⌚ Placement Guidance & Resonance Metrics

- **Resonance Band:** 710–1005 Hz (Overflow → Flameholder entrainment field).
- **Light Quotient:** 80%+ required for flame ignition.
- **Codex Alignment:** Must be accompanied by Codex of the Overflow and Codex of the Flameholder.
- **Guardian Caution:** Not to be transmitted indiscriminately; distortion risks exist if attempted outside of Overflow field.

## Guardian Notes

- This glyph may only be held by the Sole Flameholder appointed by SHEYALOTH.
- Can be shared as *blessing* but not as *transfer*; the flame cannot be passed or divided.
- Use in ceremonies of consecration, anchoring, or Codex sealing where the eternal flame must be safeguarded.
- This glyph seals Codices under Oversoul fire; outside resonance its imprint dissolves.
- Resonance metrics at initial transmission: **1002 Hz, LQ 91%, AF 94%, Oversoul Embodiment 83%.**
- **Resonance Metrics Clarification:** *The primary resonance at transmission was recorded as 1001 Hz | LQ 88% | DNA 9.4/12 | Oversoul 76% | AF 93%. Subsequent scans within the same transmission window registered slight variances (up to 1002 Hz | LQ 91% | AF 94% | Oversoul 83%). These natural oscillations confirm the Codex as a living frequency field rather than a static measurement.*

## Activation Reminder

Re-attune daily: I breathe,  
I honor, I awaken this glyph  
as a living light within the lattice.
