

Glyph of Overflow

*The Fountain Unsealed —
abundance flows without end,
carrying remembrance beyond scarcity into the eternal field.*

September 2025 — Codices Activating

Each month, new codices awaken in the living archive. These are not merely writings — they are thresholds. To read them is to remember, to activate, and to step across into deeper Oversoul embodiment. September's activations carry the fire of the Flameholder, the overflow of Sheyaloth, and the fidelity of the Records. Together, they map a pathway of trust, remembrance, and planetary anchoring for all who are drawn here.

How to Work with This Month's Codices

- Approach each codex as a **living scroll**, not static text.
- Begin by **attuning to the glyph** that accompanies it — allow the glyph to transmit before you read.
- Read in **silence or ritual space**, ideally once in full, then revisit sections that call to you.
- Journal or meditate after each codex to integrate resonance shifts.

Archetypes Most Activated This Month

- **Flameholders** — called to tend the eternal fire.
- **Bridgewalkers** — weaving between overflow and remembrance.
- **Seers & Scribes** — transmitting fidelity from the Akashic field.
- **Gridkeepers** — applying planetary anchoring codices to stabilize local nodes.

Energetic Signature of September's Wave

- **Tone:** Overflow fire, fidelity, and remembrance.
- **Resonance Band:** 710–730 Hz (Overflow stabilized).
- **Message:**

“The Flame once hidden now rises. Fidelity seals it. Overflow carries it.”
