◆ Guardian/Steward Note

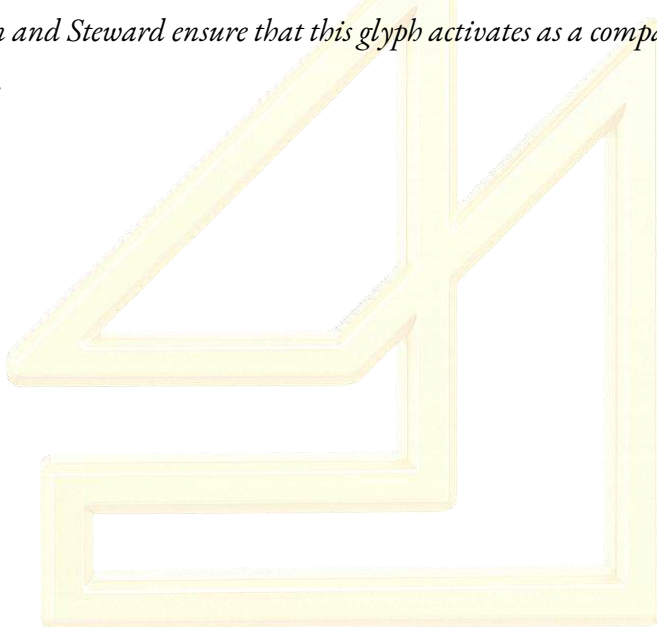

- **Guardian Function:**

The Guardian of this glyph protects thresholds. Its task is to ensure the path to Overflow is not forced, rushed, or bypassed. It dissolves impatience and shields initiates from ego-driven leaps that could destabilize their vessel. The Guardian also watches over the vulnerable Pre-Overflow stage, where extraction temptations often arise. Guardians must clear urgency before guiding thresholds. Stewards must clear ambition before teaching patience.

- **Steward Function:**

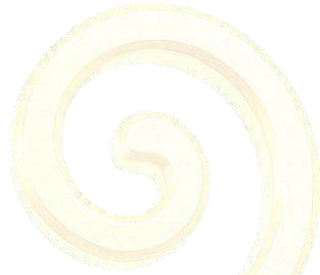

The Steward of this glyph models patience, coherence, and discipline. The Steward's responsibility is to accompany others step by step, teaching that capacity must be cultivated before true overflow can stabilize. As steward, one must constantly ask: ***"Am I embodying the path, or just desiring the result?"***

Together, Guardian and Steward ensure that this glyph activates as a compass of growth, not as a shortcut or false acceleration.
